

Key Accessories and Functions

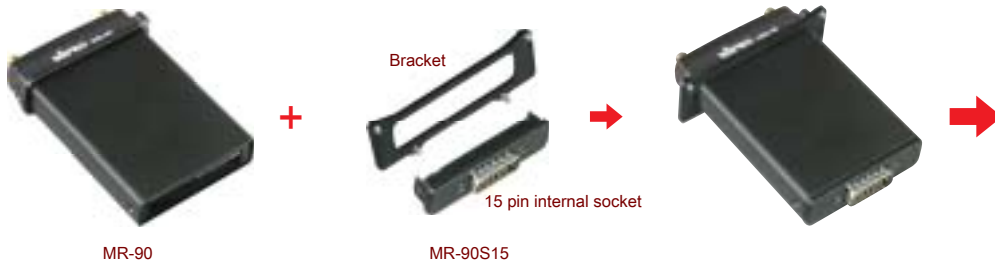

◆MR-90S Standard Package (Included with MR-90)

Includes Velcro fasteners, external I/O module, signal output cable and power cable. Ideal for other camcorders, active speakers and interfacing with other audio equipment.

◆MR-90S15 Exclusive Socket Interface

For SONY Betacam camcorders with 15-pin I/O sockets. Installs directly into the reserved slot on the camcorder. No need for external power and signal output cable.

Installed in SONY Betacam camcorder.

◆MR-90S25 Exclusive Socket Interface

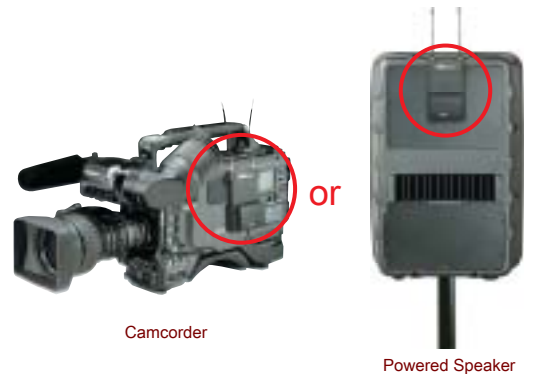

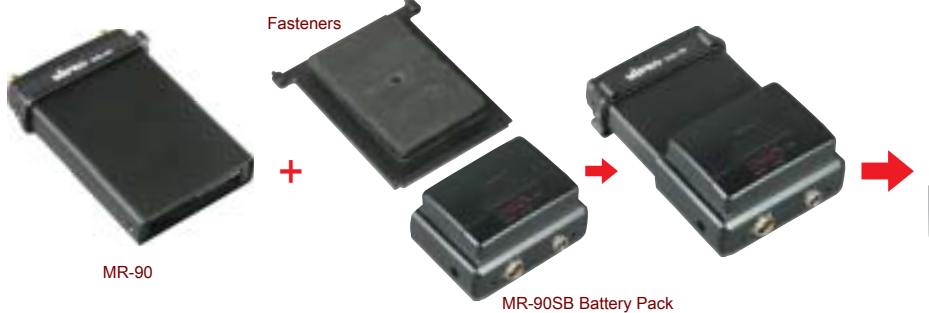

For IKEGAMI camcorders with 25-pin I/O sockets. Installs directly into the reserved slot on the camcorder. No need for external power and signal output cable.

Installed in IKEGAMI camcorder.

◆MR-90SB built-in battery pack

Ideal for other camcorders, active speakers and interfacing with other audio equipment. MR-90SB requires two AA-sized batteries, eliminating the need for an external power source.

Camcorder

Powered Speaker

◆MR-90SC Mounting Fasteners

No need for Velcro fasteners. Connects directly to the accessory shoe of many miniature camcorders.

Installed on a miniature DV Camcorder
