

TM58 Dynamic Vocal Microphone

The Superlux family of dynamic vocal microphones represent an exceptional value and provides the dependable performance needed for stage, recording, and installed sound environments.

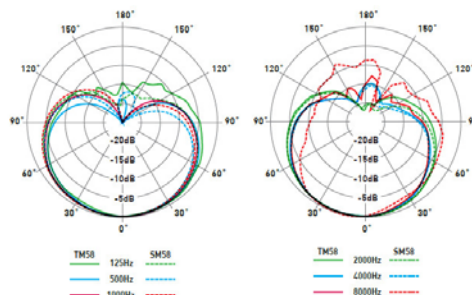

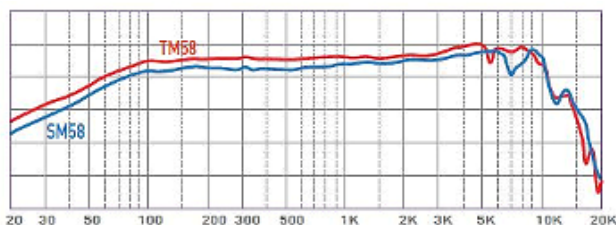

The TM58 is a professional solution designed for both speech and stage performance. Equipped with an optimized diaphragm and precise directivity, the TM58 delivers superior vocal intelligibility. The higher SPL characteristics and superior transient response of the TM58 compared with other microphones provides a strong stage performance that cuts through the mix.

The Superlux TM58 is a cost effective solution that delivers a balanced and clear sound, making it ideal for any professional vocal audio application.

SPECIFICATIONS

Element	Dynamic Capsule
Polar Pattern	Cardioid
Frequency response	50—18,000 Hz
Sensitivity	-52dB/V (1.78mV/Pa) at 1000 Hz ± 2dB
Impedance	500 Ohms
Max SPL	155dB at 1000 Hz (THD ≤ 1% 1kHz)
Connector	Integral 3 pin Male XLR
Weight	10.23 oz.

- Balanced and Clear Output
- High SPL Capacity
- Improved Handling Noise
- Strong Off Axis Rejection
- Superior Transient Response
- Precise Directivity
- High Sensitivity
- Extended Frequency Response
- Superior Intelligibility
